Your opportunity to share a legacy

Back pack for budding nature sleuths

Nature Discovery Packs will be a terrific tool for our nature centres. Visitors can borrow it for their nature walk in the park to fine-tune their investigation skills and learn to be nature super sleuths! The back pack contains a magnifying bug jar, dip net, butterfly net, and field guides on birds, animal tracks, insects, and geology. It is designed to bring children and families closer to nature.

Your gift of $300.00 will provide Nature Discovery Packs for one of our three nature centres.

A name badge on the pack will recognize your gift.

Upon request, a tax receipt that qualifies for income tax purposes will be issued in the donor's name.

There is a wonderful world of natural and cultural history to explore at the Francis/King, Elk/Beaver Lake and Witty's Lagoon nature centres.

Connect with us to talk about supporting CRD Regional Parks with this legacy opportunity.
